Nainital, Uttarakhand — +91 8266962908 — portfolio-kaushalchandola — kaushalchandola29@gmail.com
— linkedin.com/in/kaushal-chandola/ — github.com/KaushalChandola

EDUCATION

B.Tech in Computer Science and Engineering **CGPA: 8.43** **2023 – 2027**
Vellore Institute of Technology

SKILLS and TOOLS

Programming Languages: Java, Python
Web Development: HTML, CSS, JavaScript, REST API Integration, Flask
Machiene Learning & AI: Scikit-learn, NumPy, Pandas, Matplotlib
Database: MySQL, SQL
Tools & Platforms: Git, GitHub, Postman, Jupyter Notebook, Google CoLab, MATLAB

INTERNSHIPS

Virtual Internship Program — ServiceNow — Remote **Jun 2026 – Jul 2026**

- Completed a **2-month** ServiceNow Virtual Internship, gaining practical knowledge of ITSM, workflow automation, and enterprise service management.
- Explored Incident Management, Service Catalog, Knowledge Management, Workflow Studio, Reports, ATF, and Flow Designer on the ServiceNow platform.
- Acquired hands-on exposure to Agentic AI, ServiceNow Administration Fundamentals, and CSA certification concepts.

AI Web Development — InAmigos Foundation — Remote **May 2026 – Jun 2026**

- Resolved **10+** UI/UX and website issues in the existing platform, improving responsiveness, usability, and overall user experience while ensuring cross-browser compatibility.
- Designed and developed the official website for InAmigos Foundation, creating wireframes, UI screens, and prototypes in Figma before implementing responsive web pages.

PROJECTS

Personalized Medical Recommendation System with Machine Learning **Feb 2025 – Apr 2025**

Python, Flask, Machine Learning, Scikit-learn, HTML, CSS, JavaScript, Git/GitHub

- Developed a machine learning-based medical recommendation system using Python, Flask, and Scikit-learn, processing 100+ symptom combinations to predict potential diseases and provide personalized health recommendations.
 - Built an end-to-end web application integrating 3+ recommendation modules (medication, prescription guidance, and workout suggestions) and optimized the prediction pipeline to improve reliability and user experience.
- Project Link:* <https://github.com/KaushalChandola/Medical-Recommendation-System>

Searching & Sorting Algorithm Visualizer **Jun 2026 – Jul 2026**

HTML5, CSS3, JavaScript (ES6), DOM Manipulation, Git/GitHub

- Built an interactive web app visualizing sorting and searching algorithms (Bubble Sort, Merge Sort, Quick Sort, Binary Search) with real-time animations of comparisons and swaps
- Implemented dynamic controls for array size, speed, and algorithm selection using JavaScript, ensuring smooth, responsive performance across devices

Project Link: <https://github.com/KaushalChandola/Algorithm-Visualiser>

CERTIFICATIONS

Google IT Support — Google **Feb 2026**

Completed hands-on training in computer networking, operating systems, system administration, IT security, and troubleshooting using industry-standard practices.

Postman API Fundamentals — Postman **Nov 2024**

API testing, request methods(GET, POST, PUT, DELETE) and validation of REST APIs using Postman.

EXTRA-CURRICULARS & ACHIEVEMENTS

- Hackathon (Top-10) in Summer of CodeFest'25 , VIT "Certificate Link"
- Semi-Finalist in FUTSAL (Football Tournament) at Avahan,2025, VIT

Editor — Electric Vehicle Club — VIT University **Nov 2024 - Feb 2025**

Managed and edited digital content for club communication. Certificate: "evclub.vercel.app"

Graphic Designer — Electric Vehicle Club — VIT University **Dec 2024 - Apr 2025**

Managed and designed the posters for club communication. Certificate: "evclub.vercel.app"
